Kia Ora Parents, Caregivers and Whānau

Whanganui Intermediate School invites you to view what we have to offer Year 7 & 8 students in the enclosed prospectus. As you read through the information take note of any burning questions and bring them along to one of our information evenings. The home – school partnership is one we value and keeping you informed from the beginning is important. Enjoy imagining your child engaging in the many opportunities on offer at Whanganui Intermediate School and be assured that academic, cultural, artistic, sporting and social growth are aspirations we hold for every student at our school.

Our carefully designed programmes expose students to different, new and exciting ways of learning while living out our motto “Ki Te Taumata” - “Aim for the Highest’. The needs of all learners are considered and met through specialist, extension and additional support programmes. We also have a dedicated pastoral team to provide behaviour guidance and emotional support to those who may need it.

Our school structure is designed to ensure that class sizes remain between 24-26 students eliminating any effects of overcrowding in our classrooms. With 24 ‘Homerooms’ we are confident that we can maintain any future growth to our student numbers without the need for an enrolment zone. Therefore, we have successfully applied to the Ministry of Education to have our enrolment zone removed for the 2021 year.

We ask that enrolments are received in our school office by Friday 25 September 2020, being the end of Term 3. This ensures we have time to give careful consideration to the placement of your child and the subsequent make up of our classes.

I am happy to discuss the needs of your child at any time. As a past student of Whanganui Intermediate I am committed to ensuring all students have a positive and memorable experience at our school. Please make an appointment and bring your child in to meet me should you still be unsure.

Nga mihi

Katherine Ellery
